CHANGING TABLE & SHOWER CHANGER

Assisted showering and changing

CHANGING TABLE

Assisted changing

The Changing Table is available in a standard size of 2000mm and can also be custom manufactured for specific client needs. The load bearing dropside design allows easy access and the raise/lower feature enables safe transfer at a low level and reduces back strain for the Carer when raised. Transfer can take place without a hoist, although the Changing Table can be used with fixed, mobile and ceiling-mounted hoist systems.

standard features

- Battery powered raise & lower
- Fully cushioned
- Single opening side
- Lockable castors

additional options

- Twin opening side
- Static model
- Custom size manufacture
- Range of removable supports

SHOWER CHANGER

Assisted showering and changing

The Shower Changer is available in 2 standard sizes and can also be custom manufactured for specific client needs. The Shower Changer opens on both sides to form a large changing area. The raise/lower feature enables safe transfer at a low level and reduces back strain for the carer when raised.

standard features

- Battery powered raise & lower
- Fully cushioned to base and fold side
- Twin opening side
- Drain hose with storage clip
- Grab handles to each end
- Lockable castors

additional options

- Static model
- Custom size manufacture
- Range of removable supports
- Wall mounted mixer valve assembly
