

STUART HIGH QUALITY CONTRACT DIVAN

The Stuart is a traditional style divan bed suitable for domestic, residential and nursing home use and is manufactured to a much higher standard than many of its contract competitors.

It can be purchased either with a standard sprung Stuart mattress or with a liquid resistant Syklone mattress and base covering, to prevent ingress of liquid and promote increased hygiene.

KEY FEATURES:

- Maximum user weight 110kg (17 stone)
- Specifically designed, static & dynamic mattresses available (See Surfaces section - Page 40)
- Full range of bed accessories (See Page 36)

DIVAN SIDE RAILS:

Product Code: 1377/D/CHROME

DIVAN BED DYNAMIC SYSTEM PUMP HOLDER

This clever new product enables a dynamic system pump to be attached in a simple way to a Divan bed, providing a solution to pump storage issues.

Although designed for use with Sidhil Dynamic Systems and the Sidhil Divan Bed, subject to assessment as to suitability, this pump holder may be suitable for use with other manufacturers' systems and beds.
